Overview

[View the video of Casa Bortoli](#)

Casa Bortoli is an unexpected Venice. A typical stately home in a historic building on the Grand Canal. It can be reached by boat (with direct entrance) or on foot.

The view is unique and exceptional: it overlooks the Basilica of Santa Maria della Salute.

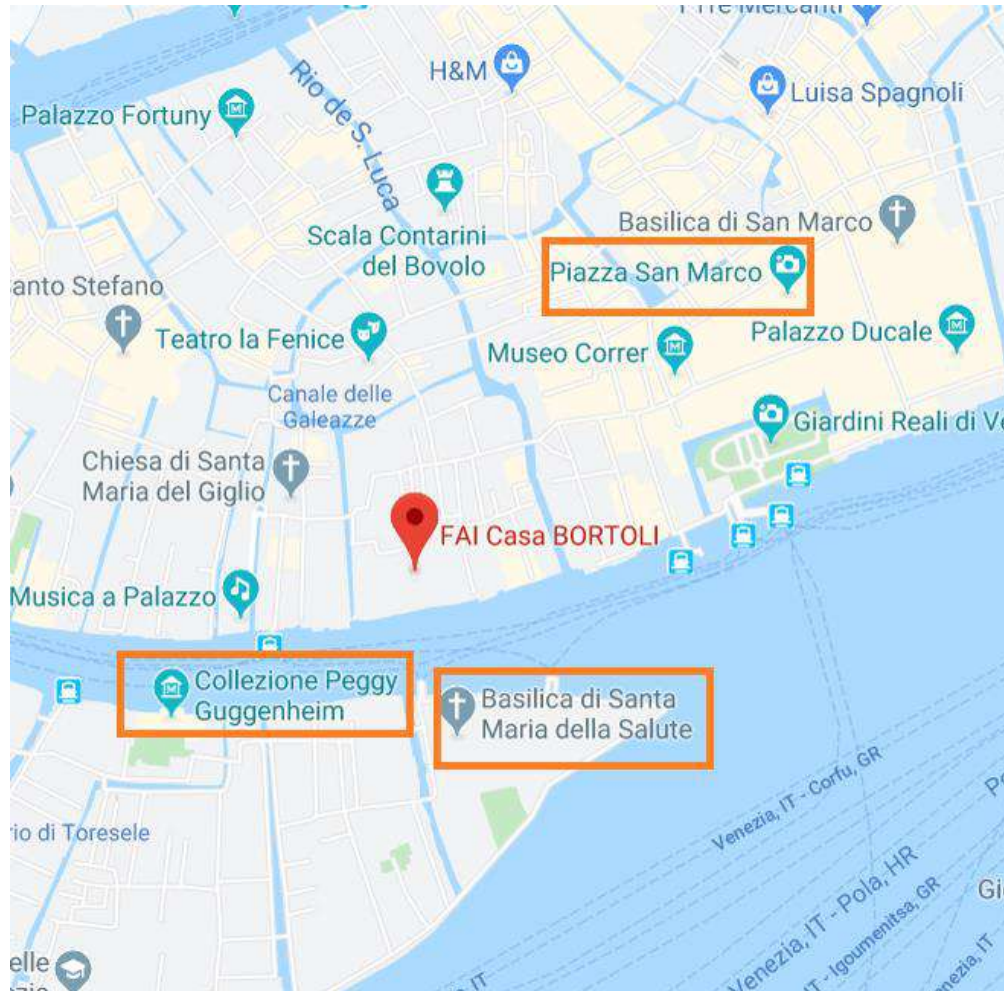

The rooms, which recall the characteristic taste of the Venetian eighteenth century, are still full of private memories - books, photographs, clothes - and echo of life lived.

An event at Casa Bortoli allows to know and live the experience of living in Venice in the twentieth century and to discover the city through original places and unpublished itineraries created by FAI.

Casa Bortoli is the perfect venue for small and prestigious dinners, aperitiv, exclusive visits and photo shoots.

Main Features

OPEN ALL YEAR
